At first, I was a little bit shy, but as I grew up, I became more confident and started to explore my interests. I have always been passionate about design and technology, and I have been fortunate to work on some of the most challenging projects in my career. I have a strong background in user experience design and I have been able to apply my skills to a variety of different industries. I am currently working as a Senior UX Designer at a leading technology company, and I am looking for a new challenge where I can continue to grow and develop my skills.

## EXPERIENCE

2018 - Present

Company Name: Tech Ltd.  
Job Position: Senior UX Designer  
Description: I have been responsible for leading the design of new products and features, working closely with the product and engineering teams to ensure a seamless user experience. I have also been involved in the recruitment and training of new team members.

2015 - 2018

Company Name: Tech Ltd.  
Job Position: UX Designer  
Description: I was responsible for the design and development of user interfaces for a range of different devices and platforms. I worked closely with the product and engineering teams to ensure that the design was both functional and aesthetically pleasing.

## EDUCATION

2019: Master of Design  
2015: University Name

I have a strong background in design and technology, and I have been fortunate to work on some of the most challenging projects in my career. # MES REALISATIONS

## Entreprise FLARCHITECTURE

Projet 1: cuisine de Monsieur V

Logiciel utilisé : AutoCad - SketchUp

### CONTEXTE

Monsieur V est venu avec un projet cuisine qui comportera une partie en L et un épi. Le client m'a donné ses cotes pour réaliser l'implantation de sa future cuisine. Le client ne voulait pas réaliser beaucoup de travaux préparatoires pour réduire les coûts. Il fallait donc respecter ces points : l'emplacement de l'arrivée d'eau, garder une plaque au gaz de ville, optimiser l'emplacement des prises, optimiser l'agencement, l'agencement a été réalisé sur mesure en collaboration avec le client, ainsi que tous les choix esthétiques tels que les choix de façades, de coloris et d'accessoires.

# MES REALISATIONS

## Entreprise Bonjour Architecture – Stage

Mes missions : création de moodboard, dessin 3D, rédaction de devis...

Logiciel utilisé : AutoCad

# MES REALISATIONS
